(By authority conferred on the department of environmental quality
by section 5 of 1976 PA 399, MCL 325.1005)

PART 5. TYPES OF PUBLIC WATER SUPPLIES

R 325.10501 Purpose.

Rule 501. The purpose of this part is to implement section 8 of the act by establishing a basic classification system for public water supplies. The basic classification system established by this part may be modified in other parts of these rules, as applicable, to reflect the need for further breakdown due to specific criteria, requirements, or standards which may apply within a public water supply.

R 325.10504 General requirements of type I public water supplies.

Rule 504. A type I public water supply shall meet the following general requirements and other specific requirements as prescribed by the act and these rules:

- (a) Obtain certified operators of treatment systems and distribution systems.
- (b) Monitor for contaminants at prescribed frequencies as required by part 7 of these rules.
- (c) Submit waterworks system operation reports and maintain records.
- (d) Comply with the provisions of part 14 of these rules and comply with all applicable state and local plumbing codes. Public water supplies that existed before the effective date of this rule that serve facilities which are licensed by the state, including manufactured housing communities and health care facilities, are not required to comply with part 14 of these rules until January 1, 2016.**
